1 HP All-in-One overview

The HP Deskjet F2200 All-in-One series is a versatile device that gives you easy-to-use copying, scanning, and printing. For information about the full range of features and functions, see the onscreen Help.

The HP All-in-One at a glance

Label	Description
1	Control panel
2	Input tray
3	Tray extender
4	Paper-width guide
5	Print cartridge door
6	Glass
7	Lid backing
8	Rear access door
9	Rear USB port
10	Power connection*

* Use only with the power adapter supplied by HP.

Control panel buttons

Label	Icon	Name and Description
1		On: Turns the HP All-in-One on or off. The On button is lit when the HP All-in-One is powered on.
2		Check Print Cartridge lights: Indicates the need to reinsert the specified print cartridge, replace the print cartridge, or close the print cartridge door. The Color light appears next to the three color drop icons and indicates that the problem is with the tri-color print cartridge. The Black/Photo light appears next to the single black drop icon and indicates that the problem is with the black or photo print cartridge.
3		Cancel: Stops a print, copy, or scan job. A blinking Paper light next to the Cancel button indicates the need to load paper or clear a paper jam. Press any button after a problem is solved to instruct the HP All-in-One to continue.
4		Scan: Starts scanning the original currently on the glass. The Scan command is ignored if the HP All-in-One is busy with any other job. The Scan command functions only when the computer is on.
5		Paper Type: Changes the paper type setting to either plain or photo paper. Make sure the appropriate paper type is loaded in the input tray. The default paper type setting is Plain Paper . The Paper Type lights indicate the currently selected paper size and type.
6		Start Copy Black: Starts a black-and-white copy job. Press this button multiple times to specify multiple black copies. The printer will start printing shortly after the number of copies have been selected. The number of copies to be printed is shown to the right of this button.
7		Start Copy Color: Starts a color copy job. Press this button multiple times to specify multiple color copies. The printer will start printing shortly after the number of copies have been selected. The number of copies to be printed is shown to the right of this button.

Status light overview

Several indicator lights inform you of the status of the HP All-in-One.

Label	Description
1	On light
2	Check Print Cartridge lights
3	Paper light
4	Paper Type lights (for the Paper Type button)

The following table describes common situations and explains what the lights mean.

Light status	What it means
All lights are off.	The HP All-in-One is turned off. Press the On button to turn on the device.
The On light and one of the Paper Type lights are on.	The HP All-in-One is ready for printing, scanning, or copying.
The On light is blinking.	The HP All-in-One is busy printing, scanning, copying, or aligning the print cartridges.
The On light blinks quickly for 3 seconds and then is on steady.	You pressed a button while the HP All-in-One is already busy printing, scanning, copying, or aligning the print cartridges.
The On light blinks for 20 seconds and then is steady.	You pressed the Scan button and there was no response from the computer.
The Paper light is blinking.	<ul style="list-style-type: none">The HP All-in-One is out of paper.The HP All-in-One has a paper jam.
The Check Print Cartridge light is blinking.	<ul style="list-style-type: none">The print cartridge door is open.The print cartridges are missing or not seated correctly.The tape was not removed from the print cartridge.The print cartridge is not intended for use in this HP All-in-One.

(continued)

Light status	What it means
	<ul style="list-style-type: none">• The print cartridge might be defective.• The print cartridge is low on ink.
The On , Paper , and Check Print Cartridge lights are blinking.	Scanner failure. Turn off the HP All-in-One, then turn it on again. If the problem persists, contact HP Support.
All lights are blinking.	The HP All-in-One has a fatal error. <ol style="list-style-type: none">1. Turn the HP All-in-One off.2. Unplug the power cord.3. Wait a minute, then plug the power cord back in.4. Turn the HP All-in-One back on. If the problem persists, contact HP Support.

Load originals for scanning and copying

You can load many different types and sizes of paper in the HP All-in-One, including letter or A4 paper, photo paper, transparencies, and envelopes. For more information, see the onscreen Help.

To load an original on the glass

1. Lift the lid on the HP All-in-One.
2. Place your original with the side you want to copy or scan face down on the left front corner of the glass.

 **TIP:** To get the correct copy size, make sure that there is no tape or other foreign object on the glass.

3. Close the lid.

Make a copy

You can make quality copies from the control panel.

To make a copy from the control panel

1. Make sure you have paper loaded in the input tray.
2. Place your original with the side you want to copy or scan face down on the left front corner of the glass.
3. Press the **Paper Type** button to set the paper type.
4. Press **Start Copy Black** or **Start Copy Color**.

Scan an original

For original documents or images placed on the glass, you can start a scan from your computer or from the HP All-in-One. To use the scan features, the HP All-in-One and computer must be connected and turned on. The HP Photosmart Software must also be installed and running on your computer prior to scanning.

NOTE: If you are using Windows 2000, use the Windows Scanner wizard instead of pressing the **Scan** button.

To scan to a computer

1. Place your original with the side you want to copy or scan face down on the left front corner of the glass.

 **TIP:** For quality copies, ensure that the scanner glass is clean and that there are no foreign materials adhering to it.

2. Press **Scan**.
3. Make any edits to the preview image, and then click **Accept** when you are finished.

2 Troubleshooting and support

This chapter contains troubleshooting information for installation and configuration issues and some operational topics. For more troubleshooting information, see the onscreen Help.

Many issues are caused when the product is connected to the computer using a USB cable before the HP Photosmart software is installed on the computer. If you connected the product to your computer before the software installation screen prompts you to do so, you must follow these steps:

To troubleshoot software installation

1. Disconnect the USB cable from the computer.
2. Uninstall the software (if you have already installed it). For more information, see [“Uninstall and reinstall the software” on page 7](#).
3. Restart your computer.
4. Turn off the product, wait one minute, then restart it.
5. Reinstall the HP Photosmart software.

 **CAUTION:** Do not connect the USB cable to the computer until prompted by the software installation screen.

For support contact information, see the inside back cover of this guide.

Uninstall and reinstall the software

If your installation is incomplete, or if you connected the USB cable to the computer before prompted by the software installation screen, you might need to uninstall and then reinstall the software. Do not simply delete the HP All-in-One application files from your computer. Make sure to remove them properly using the uninstall utility provided when you installed the software that came with the HP All-in-One.

To uninstall from a Windows computer and then reinstall

1. Open the Windows control panel and double-click **Add or Remove Programs**.
2. Select **HP Deskjet All-In-One Driver Software**, and then click **Change/Remove**. Follow the onscreen instructions.
3. Disconnect the product from your computer.
4. Restart your computer.

 **NOTE:** It is important that you disconnect the product before restarting your computer. Do not connect the product to your computer until after you have reinstalled the software.

5. To reinstall the software, insert the product CD-ROM into your computer's CD-ROM drive and follow the instructions on the startup screen to install the software.
If the startup screen does not appear, double-click **My Computer**, double-click the **CD-ROM** icon with the HP logo, and then double-click **setup.exe**
6. Follow the onscreen instructions and the instructions provided in the Setup Guide that came with the product.

When the software installation is complete, the **HP Digital Imaging Monitor** icon appears in the Windows system tray.

To verify that the software is properly installed, double-click the HP Solution Center icon on the desktop. If the HP Solution Center shows the essential icons (**Scan Picture** and **Scan Document**), the software has been properly installed.

For Macintosh users: Uninstall and reinstall directions are in the Readme file and in the Help files for the software.

Hardware setup troubleshooting

This section contains hardware troubleshooting information for the HP All-in-One.

The product will not turn on

Solution

- Make sure the power cord is firmly connected to both the product and the power adapter. Plug the power cord into a power outlet, surge protector, or power strip.

1	Power connection
2	Power cord and adapter
3	Power outlet

- If you are using a power strip, make sure the power strip is on. Or, try plugging the product directly into a power outlet.
- Test the power outlet to make sure it is working. Plug in an appliance that you know works, and see if the appliance has power. If not, then there might be a problem with the power outlet.
- If you plugged the product into a switched outlet, make sure the outlet is switched on. If it is switched to on but still does not work, then there might be a problem with the power outlet.

Cause: The product was not plugged into a power outlet properly or there was a problem with the power outlet.

Solution: The product might not respond if you press the **On** button too quickly. Press the **On** button once. It might take a few minutes for the product to turn on. If you press the **On** button again during this time, you might turn the product off.

⚠ **CAUTION:** If the product still does not turn on, it might have a mechanical failure. Unplug the product from the power outlet.
Contact HP support for service.
Go to: www.hp.com/support. If prompted, choose your country/region, and then click **Contact HP** for information on calling for technical support.

Cause: You pressed the **On** button too quickly.

I connected the USB cable, but I am having problems using the HP All-in-One with my computer

Solution: You must first install the software that came with the product before connecting the USB cable. During installation, do not plug in the USB cable until prompted by the onscreen instructions. Connecting the USB cable before prompted can cause errors.

Once you have installed the software, connecting your computer to the product with a USB cable is straightforward. Simply plug one end of the USB cable into the back of your computer and the

other into the back of the product. You can connect to any USB port on the back of your computer.

For more information on installing the software and connecting the USB cable, see the Setup Guide that came with the HP All-in-One.

The HP All-in-One does not print

Solution: If the HP All-in-One and computer are not communicating with each other, try the following:

- Look at the **On** button located on the product. If it is not lit, the product is turned off. Make sure the power cord is firmly connected to the product and plugged into a power outlet. Press the **On** button to turn on the product.
- Make sure the print cartridges are installed.
- Make sure you have paper loaded in the input tray.
- Make sure that the product does not have a paper jam.
- Check that the print carriage is not jammed.
Open the front access door to access the print carriage area. Remove any objects that are blocking the print carriage, including any packing materials. Turn the product off and then turn it on again.
- Print a test page to see if the product can print and is communicating with the computer.
- Make sure that the print queue is not paused. If it is, choose the appropriate setting to resume printing. For more information about accessing the print queue, see the documentation that came with the operating system installed on your computer.
- Check the USB cable. If you are using an older cable, it might not be working properly. Try connecting it to another product to see if the USB cable works. If you experience problems, the USB cable might need to be replaced. Also verify that the cable does not exceed 3 meters (9.8 feet) in length.
- Make sure your computer is USB ready and that you are using a supported operating system. For more information, see the Readme file.
- Check the connection from the product to your computer. Verify that the USB cable is securely plugged into the USB port on the back of the product. Make sure the other end of the USB cable is plugged into a USB port on your computer. After the cable is connected properly, turn the product off and then on again.

- If you are connecting the product through a USB hub, make sure the hub is turned on. If the hub is on, try connecting directly to your computer.
- Check other printers or scanners. You might need to disconnect older products from your computer.
- Try connecting the USB cable to another USB port on your computer. After you check the connections, try restarting your computer. Turn the product off and then on again.
- After you check the connections, try restarting your computer. Turn the product off and then on again.
- If necessary, remove and then install the software you installed with the product again.

For more information on setting up the HP All-in-One and connecting it to your computer, see the Setup Guide that came with the HP All-in-One.

Clear paper jams

For information about clearing a paper jam, see the onscreen Help. For instructions on accessing the onscreen Help on a Windows computer, see [“Onscreen Help” on page 10](#).

Print cartridge troubleshooting

For information about troubleshooting print cartridges, see the onscreen Help. For instructions on accessing the onscreen Help, see [“Onscreen Help” on page 10](#).

Find more information

A variety of resources, both printed and onscreen, provide information about setting up and using the HP All-in-One.

Setup Guide

The Setup Guide provides instructions for setting up your HP All-in-One and installing software. Make sure you follow the steps in the Setup Guide in order.

If you have problems during setup, see Troubleshooting in the last section of the Setup Guide, or see [“Troubleshooting and support” on page 7](#) in this guide.

Onscreen Help

The onscreen Help provides detailed instructions on features of your HP All-in-One that are not described in this guide, including features that are only available using the software you installed with your HP All-in-One. The onscreen Help also provides regulatory and environmental information.

To access the onscreen Help

- **Windows:** Click **Start > All Programs > HP > Deskjet F2200 All-in-One series > Help**. To install the onscreen Help, insert the software CD in your computer and follow the onscreen instructions.
- **Macintosh:** Click **Help > Mac Help > Library > HP Product Help**.

HP Web site

If you have Internet access, you can get help and support from the HP Web site at www.hp.com/support. This Web site offers technical support, drivers, supplies, and ordering information.

HP support

You can contact HP Support by phone and online. Support options and availability vary by product, country/region, and language.

HP support by phone

For a list of support phone numbers, see the inside back cover of this guide. Support options and availability vary by product, country/region, and language.

Phone support period

One year of phone support is available in Latin America (including Mexico). To determine the duration of phone support in North America, Eastern Europe, the Middle East, Asia Pacific, and Africa, go to www.hp.com/support.

Standard phone company charges apply.

After the phone support period

After the phone support period, help is available from HP at an additional cost.

Contact your HP dealer or call the support phone number for your country/region to learn more about support options.

Before calling HP Support

1. Make sure that:
 - a. The HP All-in-One is plugged in and turned on.
 - b. The specified print cartridges are installed correctly.
 - c. The recommended paper is properly loaded in the input tray.
2. Reset the HP All-in-One:
 - a. Turn off the HP All-in-One by pressing the **On** button.
 - b. Unplug the power cord from the back of the HP All-in-One.
 - c. Plug the power cord back into the HP All-in-One.
 - d. Turn on the HP All-in-One by pressing the **On** button.
3. Have the following information available:
 - a. Specific name of the HP All-in-One, as it appears on the control panel.
 - b. Print a self-test report. (For more information, see the *User Guide*.)
 - c. Be prepared to describe your problem in detail.
 - d. Have your serial number and service ID ready, found on the self-test report.
 - e. Be near the HP All-in-One printer when you call HP Support.

Technical information

The technical specifications and international regulatory information for the HP All-in-One are provided in this section. For additional regulatory and environmental specifications, see the onscreen Help.

For additional regulatory and environmental information, including the Declaration of Conformity statement, see the onscreen Help.

System requirements

Software system requirements are located in the Readme file.

Paper specifications

- Input tray capacity: Plain paper sheets: Up to 80 (75 gsm (20 lb.) paper)
- Output tray capacity: Plain paper sheets: Up to 50 (75 gsm (20 lb.) paper)

NOTE: For a complete list of supported media sizes, see the printer software.

Physical specifications

- Height: 18.05 cm (7.11 inches)
- Width: 42.57 cm (16.76 inches)
- Depth: 26.74 cm (10.53 inches)
- Weight: 5.27 kg (11 lbs)

Power specifications

- Power consumption: 20 watts (average printing)
- Input voltage: AC 100 to 240 V ~ 1 A 50–60 Hz
- Output voltage: DC 32 V===375 mA, 16 V===500mA
- Power supply: 0957-2231, AC 100 to 240 V ~ 1 A 50–60 Hz (±3 Hz)
- Power supply: 0957-2248, AC 200 to 240 V (±10%), 50 - 60 Hz (±3 Hz)

NOTE: Use only with the power adapter supplied by HP.

Environmental specifications

- Recommended operating temperature range: 15° to 30° C (59° to 86° F)
- Allowable operating temperature range: 10° to 35° C (50° to 95° F)
- Humidity: 15% to 80% RH non-condensing
- Non-operating (Storage) temperature range: –20° to 50° C (–4° to 122° F)
- In the presence of high electromagnetic fields, it is possible the output from the HP All-in-One may be slightly distorted
- HP recommends using a USB cable less than or equal to 3 m (10 feet) in length to minimize injected noise due to potential high electromagnetic fields

Regulatory notices

The HP All-in-One meets product requirements from regulatory agencies in your country/region. For a complete listing of regulatory notices, see the onscreen Help.

Regulatory model identification number

For regulatory identification purposes, your product is assigned a Regulatory Model Number. The Regulatory Model Number for your product is VCVRA-0706. This regulatory number should not be confused with the marketing name (HP Deskjet F2200 All-in-One series, etc.) or product numbers (CB683A, etc.).

Warranty

HP product	Duration of limited warranty
Software Media	90 days
Printer	1 year
Print or Ink cartridges	Until the HP ink is depleted or the "end of warranty" date printed on the cartridge has been reached, whichever occurs first. This warranty does not cover HP ink products that have been refilled, remanufactured, refurbished, misused, or tampered with.
Accessories	1 year unless otherwise stated

A. Extent of limited warranty

1. Hewlett-Packard (HP) warrants to the end-user customer that the HP products specified above will be free from defects in materials and workmanship for the duration specified above, which duration begins on the date of purchase by the customer.
2. For software products, HP's limited warranty applies only to a failure to execute programming instructions. HP does not warrant that the operation of any product will be interrupted or error free.
3. HP's limited warranty covers only those defects that arise as a result of normal use of the product, and does not cover any other problems, including those that arise as a result of:
 - a. Improper maintenance or modification;
 - b. Software, media, parts, or supplies not provided or supported by HP;
 - c. Operation outside the product's specifications;
 - d. Unauthorized modification or misuse.
4. For HP printer products, the use of a non-HP cartridge or a refilled cartridge does not affect either the warranty to the customer or any HP support contract with the customer. However, if printer failure or damage is attributable to the use of a non-HP or refilled cartridge or an expired ink cartridge, HP will charge its standard time and materials charges to service the printer for the particular failure or damage.
5. If HP receives, during the applicable warranty period, notice of a defect in any product which is covered by HP's warranty, HP shall either repair or replace the product, at HP's option.
6. If HP is unable to repair or replace, as applicable, a defective product which is covered by HP's warranty, HP shall, within a reasonable time after being notified of the defect, refund the purchase price for the product.
7. HP shall have no obligation to repair, replace, or refund until the customer returns the defective product to HP.
8. Any replacement product may be either new or like-new, provided that it has functionality at least equal to that of the product being replaced.
9. HP products may contain remanufactured parts, components, or materials equivalent to new in performance.
10. HP's Limited Warranty Statement is valid in any country where the covered HP product is distributed by HP. Contracts for additional warranty services, such as on-site service, may be available from any authorized HP service facility in countries where the product is distributed by HP or by an authorized importer.

B. Limitations of warranty

TO THE EXTENT ALLOWED BY LOCAL LAW, NEITHER HP NOR ITS THIRD PARTY SUPPLIERS MAKES ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, SATISFACTORY QUALITY, AND FITNESS FOR A PARTICULAR PURPOSE.

C. Limitations of liability

1. To the extent allowed by local law, the remedies provided in this Warranty Statement are the customer's sole and exclusive remedies.
2. TO THE EXTENT ALLOWED BY LOCAL LAW, EXCEPT FOR THE OBLIGATIONS SPECIFICALLY SET FORTH IN THIS WARRANTY STATEMENT, IN NO EVENT SHALL HP OR ITS THIRD PARTY SUPPLIERS BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER BASED ON CONTRACT, TORT, OR ANY OTHER LEGAL THEORY AND WHETHER ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

D. Local law

1. This Warranty Statement gives the customer specific legal rights. The customer may also have other rights which vary from state to state in the United States, from province to province in Canada, and from country to country elsewhere in the world.
2. To the extent that this Warranty Statement is inconsistent with local law, this Warranty Statement shall be deemed modified to be consistent with such local law. Under such local law, certain disclaimers and limitations of this Warranty Statement may not apply to the customer. For example, some states in the United States, as well as some governments outside the United States (including provinces in Canada), may:
 - a. Preclude the disclaimers and limitations in this Warranty Statement from limiting the statutory rights of a consumer (e.g., the United Kingdom);
 - b. Otherwise restrict the ability of a manufacturer to enforce such disclaimers or limitations; or
 - c. Grant the customer additional warranty rights, specify the duration of implied warranties which the manufacturer cannot disclaim, or allow limitations on the duration of implied warranties.
3. THE TERMS IN THIS WARRANTY STATEMENT, EXCEPT TO THE EXTENT LAWFULLY PERMITTED, DO NOT EXCLUDE, RESTRICT, OR MODIFY, AND ARE IN ADDITION TO, THE MANDATORY STATUTORY RIGHTS APPLICABLE TO THE SALE OF THE HP PRODUCTS TO SUCH CUSTOMERS.

HP Limited Warranty

Dear Customer,

You will find below the name and address of the HP entity responsible for the performance of the HP Limited Warranty in your country.

You may have additional statutory rights against the seller based on your purchase agreement. Those rights are not in any way affected by this HP Limited Warranty.
